FAQS

Your questions answered:

What should I consider when purchasing a memorial?

Cemetery rules may affect style and size.

How much does a memorial cost?

Size, color and other options affect price. See a memorial consultant for a quote.

How is a memorial designed?

We will assist you in choosing among thousands of carvings and styles. You will receive a proof or scaled drawing before carving.

What is a foundation?

The granite foundation supports the weight of the memorial and base.

When is the best time to buy a memorial?

Pre-planning is always recommended. You can choose something that represents you and spare your family the decision during their time of grief. However, we understand this may not be possible. Memorials can be purchased any time of year and our dedicated staff will be available to walk you through the process.
